

小鼠抗 RFP Tag 单克隆抗体

中文名称： 小鼠抗 RFP Tag 单克隆抗体

英文名称： Anti-RFP Tag mouse monoclonal antibody

别名： Red Fluorescent Protein; RFP; GFP like chromoprotein; red fluorescent protein;
Red fluorescent protein eqFP611

相关类别： 标签抗体

储存： 冷冻（-20℃）

宿主： Mouse

抗原： RFP Tag

标记物： Unconjugate

克隆类型： mouse monoclonal

技术规格

Background:	RFP (Red Fluorescent Protein), cloned from Discosoma coral (DsRed, DsRed2 or drFP583), is a protein which exhibits bright red fluorescence when exposed to blue light. It is common research practice for biologists to introduce a gene (or a gene chimera) encoding an engineered fluorescent protein into living cells and subsequently visualize the location and dynamics of the gene product using fluorescence microscopy.
Applications:	WB
Name of antibody:	RFP Tag
Immunogen:	Fusion protein of RFP
Full name:	Red Fluorescent Protein

Synonyms:	RFP; GFP like chromoprotein; red fluorescent protein; Red fluorescent protein eqFP611
WB Positive control:	Recombinant RFP Tag protein
WB Recommended dilution:	5000-20000
